# 1-Day Programme on Decision Making for Registered Nurses

Decision Making is an integral part of the role of all nurses. It is a skill that requires consideration and development.

The objectives of this one day programme on Decision Making are:

- To enhance logical and intuitive knowledge into clinical decision making
- To examine the factors that influence the decisions we make as practitioners
- To promote evidence based practice
- To promote the role of our clients in the decision making process.

Joe Wolfe & Associates believes in the dignity of all individuals and is committed to ensuring that equality in service provision in all aspects of the work of the company remains one of the core principles underpinning the service
