

Cost Effectiveness & Value for Money!

SERVICES WE OFFER

1. Mini-audits in key areas to identify where savings can be made
2. Cross-comparing costs of key consumables
3. Facilitating groups of staff to identify areas of savings
4. Training staff in the area of cost effectiveness/ value for money

"There has been great benefit to having an independent external analysis of our processes, particularly from a company that has such in-depth knowledge of the Irish Health System and its current challenges. Using Joe Wolfe & Associates in this manner has provided us with considerable value for money, in terms of the savings made versus the cost of the support provided".

*Mr. John Ryan, Secretary and General Manager,
The Coombe Women and Children's University Hospital*

As you can see from the testimonial above, the work we do in this area, can ensure that organisations are equipped with a practical approach to cost effectiveness and value for money.

If you need to:

- Identify areas where savings can be made;
- Ensure accountable and transparent financial management practices;
- Develop a strategy for effective use of resources;
- Increase awareness of the need to save money

To discuss how we might help you further, please contact Joe Wolfe:
